

XENON[®]

HEATING & AIR CONDITIONING

UP TO 80% AFUE, ECM MOTOR, MULTI-POSITION GAS FURNACE

Xenon Heating & Air Conditioning

brand 80% AFUE Efficiency Gas Furnace with two-stage heating and a variable-speed circulating blower provides efficient and economical performance. Unlike

single-stage gas furnaces that operate 'all on' or 'all off,' a Xenon Heating & Air Conditioning variable-speed gas furnace typically runs up to 90% of the time in the low-speed capacity on most days. But when the temperature outside is frightfully cold, this furnace quietly ramps-up to high-speed capacity to deliver all

the warm, comfortable heat your home needs.

Plus, we protect it with a strong warranty, a testimony to our faith in the quality of this product. The Xenon Heating & Air Conditioning 80% AFUE Efficiency Gas Furnace is protected

by a **Lifetime Heat Exchanger Limited Warranty***, **10-Year Unit Replacement Heat Exchanger Limited Warranty*** and a **10-Year Parts Limited Warranty*** on all functional parts.

* Complete warranty details available from your Xenon Heating & Air Conditioning dealer or at www.goodmanmfg.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), 10-Year Unit Replacement Heat Exchanger Limited Warranty, and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

UP TO 80% AFUE, ECM MOTOR, MULTI-POSITION GAS FURNACE

When operating at low-speed levels, your **Xenon Heating & Air Conditioning** gas furnace consumes less energy to keep your home comfortable. In addition, the 80% AFUE rating on this gas furnace means that 80 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems are rated at 60% AFUE. The Department of Energy (DOE) established the AFUE (Annual Fuel Utilization Efficiency) system to calculate the annual operating cost of residential gas furnaces.

Xenon Heating and Air Conditioning's 80% two-stage, gas furnaces feature a heavy-gauge, reinforced, fully insulated steel cabinet and durable baked-enamel finish that will stand the test of time.

Features of the Xenon Heating and Air Conditioning 80% AFUE Gas Furnaces

- Aluminized-steel dual-diameter tubular heat exchanger
- Two-stage gas valve with convertible technology
- Efficient ECM circulator motor
- Durable 115-volt Silicon Nitride Igniter
- Electronic control board with self-diagnostics and provisions for electronic air cleaner and humidifier
